

Leonardo Technologies, Inc. (LTI) is accepting resumes from energy and environmental professionals for positions supporting the U.S. Department of Energy's National Energy Technology Laboratory (NETL) campuses at Pittsburgh, PA; Morgantown, WV; Albany, Oregon; Houston, Texas; and Fairbanks, Alaska.

LTI is seeking senior, mid-level, junior and entry-level scientists and engineers with interest and experience in technology, research and policy related to coal, oil, natural gas, energy efficiency, renewable energy and electricity. A limited number of administrative positions are also available.

A brief description of benefits offered by LTI is available on our website www.lti-global.com. LTI is not anticipating reimbursement for relocation expenses.

If you would like to be considered for potential employment, please forward your resume and salary history to Anita Rice arice@lti-global.com at LTI's corporate headquarters in Bannock, OH. Include a description of the technical programs you have supported in the areas stated above. Please send your documents in either Acrobat (.pdf) or Word (.doc) format and copy Mrs. Rice's assistant, Nina Dutton ndutton@lti-global.com.

It is preferred that you send your information to LTI from a private email account. Communications between yourself and LTI must remain independent of DOE/NETL due to rules that prohibit recruiting using federal property. If you do not have access to a private computer, you may fax your resume to (740) 968-3071.
